Connect Air

— TAPS COLLECTION

FRESHNESS AND LIGHTNESS. CONNECT AIR WAS INSPIRED BY THE IDEA OF FUSING A CLASSIC GEOMETRIC PIECE - THE TAP - WITH SHAPES THAT TRANSITION ORGANICALLY FROM EACH OTHER. ALL WITH A SENSE OF LIGHT AIRINESS.

THE FINISHES WITHIN OUR BRASSWARE PALETTE
CAN BE COMBINED WITH OUR CERAMICS
AND FURNITURE TO CREATE STRONG VISUAL
STATEMENTS – THE PERFECT SYNERGY BETWEEN
SHAPE, MATERIAL AND COLOUR.

Recommended combinations

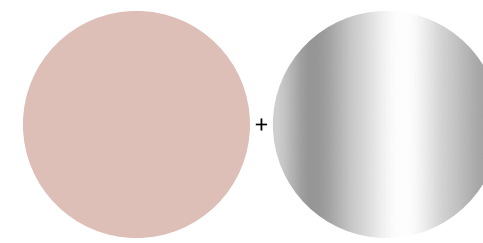

A CAREFULLY CONSIDERED RANGE OF FINISHES, SELECTED TO OFFER YOU FREEDOM OF CREATIVE EXPRESSION.

Ceramics

Ten new ceramic colours join White Gloss and White Silk to offer a complete palette that brings a sense of emotion to bathroom interiors. Some colours hark back to historical Ideal Standard designs but with a contemporary and elegant finish, while others are entirely new and have been designed to complement popular modern materials, such as marble and stone.

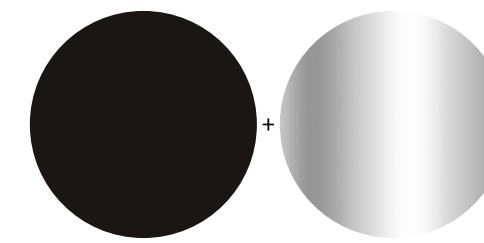

Brassware

The finishes within our brassware palette can be combined with our ceramics and furniture to create strong visual statements – the perfect synergy between shape, material and colour. PVD coating is by far the most durable coating available. It is ten times more scratch resistant, and has three times more surface hardness.

Engineered with the future in mind

1969 was a landmark year when our engineers pioneered the ceramic disc cartridge to create a unique drip-free, easy-to-use and incredibly durable single lever tap. Today we keep bringing meaningful innovations to the markets to ensure our taps are not only efficient but also offer sustainable features as well as comfort.

ECOFLOW REGULATOR

WATER IS A PRECIOUS RESSOURCE.
SAVE WATER WITH ECOFLOW.

Our Eco Flow regulator reduces the water consumption down to 5L/min, without compromising on comfort.

EASYFIX® INSTALLATION

EASY AND FAST TO INSTALL

EasyFix® makes installation simple with its reliability reducing maintenance and cutting installation time by 30%.

BLUESTART® TECHNOLOGY

REDUCE ENERGY USAGE BY UP TO 50%
WITH BLUESTART® TECHNOLOGY.

Our BlueStart® Technology means that only cold water flows initially when opening the tap in middle position, hot water being saved unless actively selected by turning the lever. This enables BlueStart® to facilitate energy savings of up to 50%.

SMARTSHINE® FINISHING

SMARTSHINE® FINISHING ALLOWS
OUR CHROME TO LAST LONGER.

SmartShine® Finishing allows our chrome to last longer. It makes our taps easy to clean and easy to maintain.

LIGHTMOVE®

SUPERIOR PINPOINT PRECISION
OVER WATER TEMPERATURE.

The FirmaFlow® cartridge enables finer temperature adjustments between 34°C and 42°C. Precision is paramount with LightMove®, improving tap handle usability, whilst the in-built hot water limiter makes scalding a thing of the past.

CLICK TECHNOLOGY

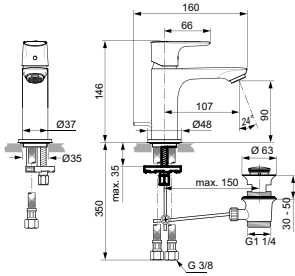

SAVE UP TO 50% MORE WATER
WITH CLICK TECHNOLOGY

FirmaFlow® uses improved Click Technology with a mechanical stop to limit basin tap water flow to just the amount required for washing hands. This is even more efficient in maintaining flow consistency while reducing usage by up to 50%.
