50 years of the ceramic disc cartridge

DEFINING THE FUTURE

It was a landmark year when our German engineers pioneered the ceramic disc cartridge to create a unique drip-free, easy-to-use and incredibly durable single lever tap.

While it left no telltale footprints, this technology continues to make its mark in millions of homes worldwide.

Above: FirmaFlow® cartridge

Pioneers past & present

OUR MISSION TO INNOVATE

In collaboration with leading universities, architects, urban designers and construction firms worldwide, we are working to positively shape the future of modern living.

We bring our industry-leading knowledge, skills and experience to a range of products that are intelligently designed to meet the needs of our customers, both today and tomorrow.

FirmaFlow®

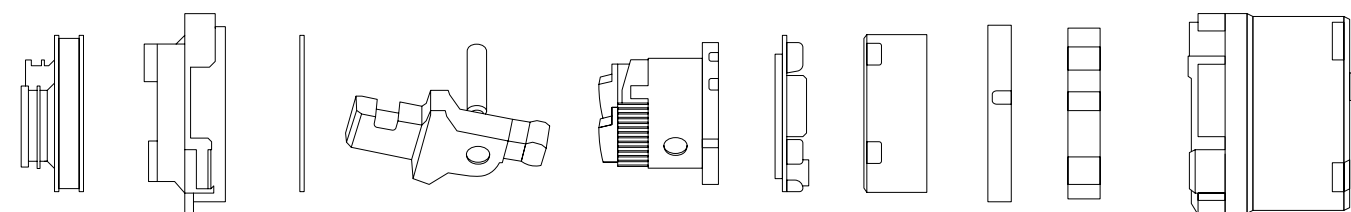

THE DESIGN PERFECTION YOU NEVER GET TO SEE

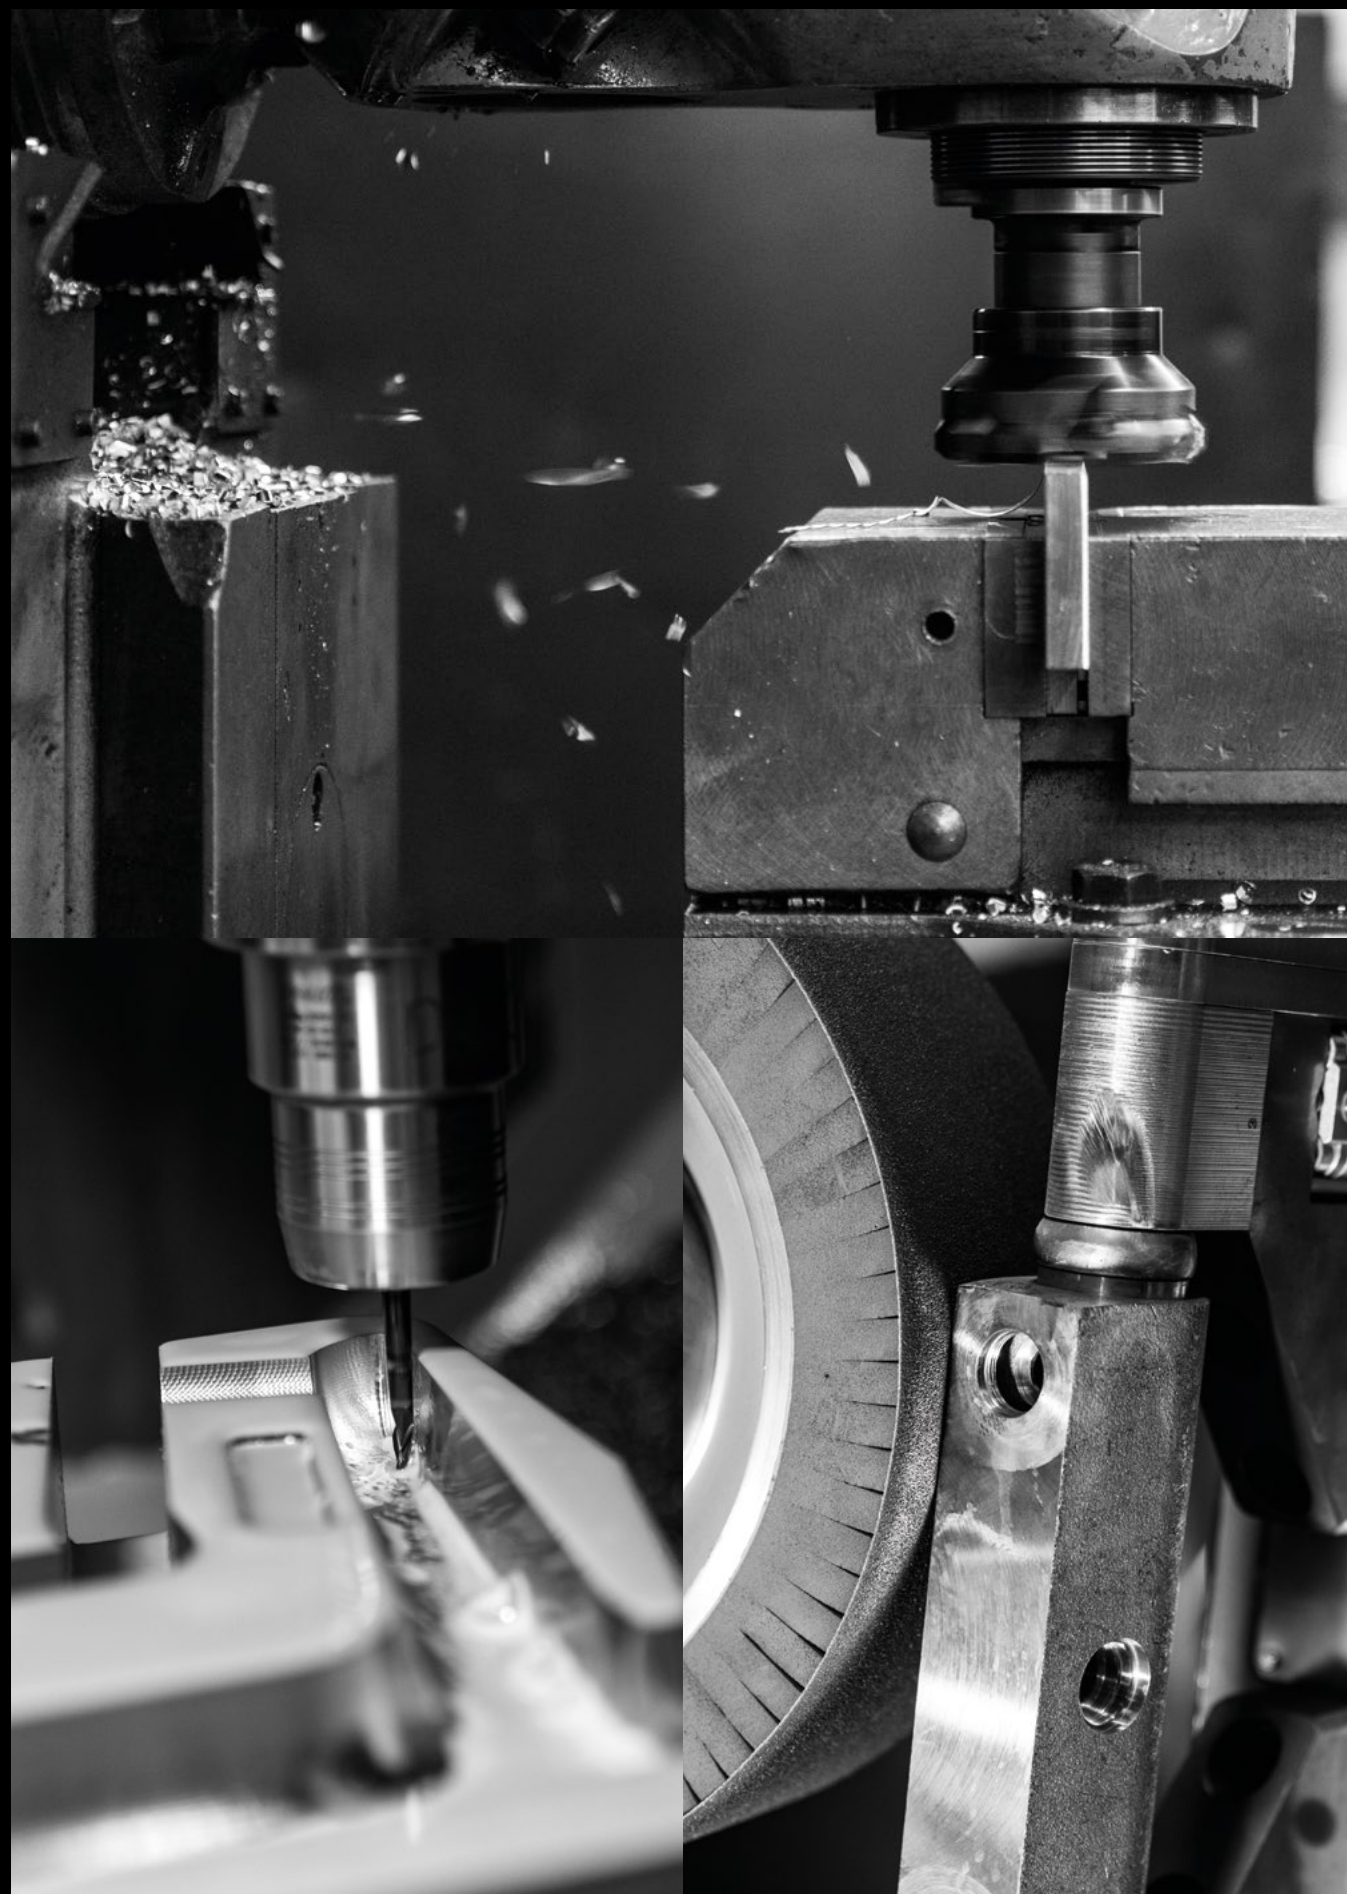

As the ultimate development of the original ceramic disc cartridge, some 50 years on, FirmaFlow® is the undisputed market leader with its innovative engineering and extraordinary powers of durability, comfort and control are achieved for twice as long as the industry standard.

500,000+
use cycles, twice that
of the industry norm

95°C
heat resistant

10-15 years
of daily use

FirmaFlow®

ENGINEERED WITH THE FUTURE IN MIND

Click Technology

Save up to 50% more water with Click Technology.

FirmaFlow® uses improved Click Technology with a mechanical stop to limit basin tap water flow to just the amount required for washing hands. This is even more efficient in maintaining flow consistency while reducing usage by up to 50%.

BlueStart® Technology

Reduce energy usage by up to 50% with BlueStart® Technology.

Our BlueStart® Technology means that only cold water flows initially when opening the tap, hot water being saved unless actively selected by turning the lever. This enables BlueStart® to facilitate energy savings of up to 50%.

LightMove®

Superior pinpoint precision over water temperature.

The FirmaFlow® cartridge enables finer temperature adjustments between 34°C and 42°C. Precision is paramount with LightMove®, improving tap handle usability, whilst the in-built hot water limiter makes scalding a thing of the past.

FirmaFlow®

TESTED TO THE LIMIT FOR UNLIMITED PERFORMANCE

Performance & Durability

Our ceramic disc cartridge undergoes 45 separate performance tests.

We test for pressure, temperature, noise and endurance to prove what we already know: it's the most durable, reliable, high-performance product on the market.

Right: Testing FirmaFlow®

The Cera Family

THE COMPLETE COLLECTION THAT'S NEVER LOW ON SOLUTIONS

Simpler to select from,
faster to fit and with the hidden
brilliance of our ceramic disc
technology, The Cera Family is
a small collection that offers
almost unlimited solutions.

The Cera Family

EASIER THAN
EVER TO FIT
AND MAINTAIN

EasyFix®

EasyFix® makes
installation simple
with its reliability
reducing maintenance.

Every basin mixer in The Cera
Family comes with our EasyFix®
system, which cuts installation
time by 30%.

Left: EasyFix® installation

The Cera Family

BEAUTIFUL AS WELL AS BEAUTIFULLY ENGINEERED

Design & Ergonomics

Smoother surfaces,
reduced spout radius,
larger comfort areas,
easier to clean.

Each tap in The Cera Family has
been crafted with a larger comfort
area beneath the aerator, improving
ergonomic performance.

This makes every tap in the collection
easier to operate while SmartShine®
Finishing makes cleaning easier too.

Together we positively impact the future of modern living. Together we think bigger. Together we establish the rules for considered design. Together we bring emotion to functional perfection. Together we form enduring partnerships. Together we meet the needs of all generations. Together we shape the future of the category we have defined.

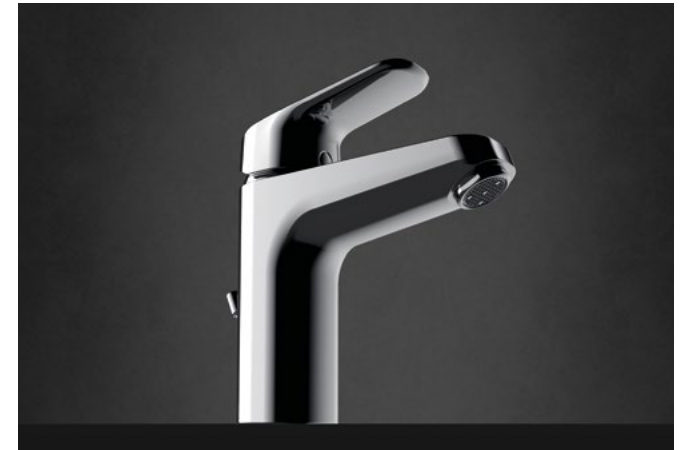

Together for Better.
